CREWDESK | AGENCY OS

The Connected Operations & Profit Platform for Digital Agencies

LAUNCH PILOT OFFER
- 1st Month 100% Free
- Up to 3 Custom Modules Built Free
- Zero Setup Fee (normally PKR 20k)

The Core Proposition: Run your whole agency from **one connected system**, not five fragmented tools and a spreadsheet. Attendance, leaves, client passwords, team workload, and real profit-per-project — already connected and ready to use from Day 1. *Used daily by our own agency team.*

Sound Familiar? The 5 Daily Operations Leaks That Cost 18+ Hours Every Month:

1. Attendance Disputes: Checking biometrics, WhatsApp, and office boys. Disputes eat 2 days of month-end payroll.	**2. WhatsApp Leaves:** Leave requests buried in group chats. You promise client deadlines while developers are secretly off.
3. Blind Deadlines: Generic tools count calendar days, not real working capacity. Overtime burns your team to save face.	**4. Password Chaos:** Client production credentials stored in shared Google Sheets and chats. Severe security and offboarding leak.
5. Unknown Project Profit: Invoicing $5,000 while seniors log 160h. You have no idea if completed projects made or lost money.	**6. High Per-Seat Bills:** Paying $300–$900/mo in US dollars for ClickUp and add-ons that require ongoing manual upkeep.

The 7 Core Operational Modules — Everything Included in One System:

Module & Focus	Target Role	What It Does For Your Agency
1. Business Analysis	**Owner / Admin**	Live net profit & margin per project. Multiplies logged hours by confidential developer cost. Visualizes top client projects and revenue health without Excel.
2. Agency Overview	**Owner**	Birds-eye command view of your entire agency momentum. Track active projects, milestone completions, department progress, and company health in one screen.
3. Attendance & Leave	**HR + Owner**	1-click daily check-in from phone or desktop. Automatically flags late arrivals (with reason log) and overtime. 60-second leave requests with immutable audit trail.
4. Projects Module	**PM + Admin**	Organizes client projects category-wise (Mobile, Web, AI, Retainers). Track milestone deadlines, deliverables, sprints, and subtasks cleanly in real time.
5. Password Manager	**Admin Only**	Built-in AES-256 encrypted vault for client servers and keys. Granular team permissions with copy/reveal logs. 1-click access termination upon employee departure.
6. Time Tracking	**Admin + PM**	Task-based active timer or manual hour logs. See who worked the most on each client deliverable. Eliminates painful weekly timesheet reconciliation.
7. Workload & Capacity	**Admin + PM**	Inspects real developer capacity before delegating. Approved leaves automatically deduct project hours. Instantly see who has max allocation and who has bandwidth.

4 Dedicated Role Dashboards (Zero Info Leakage):
- **Admin:** Full command, overall progress, profit margins, workload, password vault.
- **HR:** Employee onboarding, profiles, teams, daily attendance, working hours & leave approvals.
- **Project Manager:** Project milestones, task assignments, sprint tracking, capacity balancing.
- **Employee / Dev:** Assigned tasks, 1-click attendance punch-in, fast leave requests, time tracking.

Head-to-Head Comparison: Why ClickUp & Generic PM Tools Fall Short

Generic tools are empty toolkits that require 40+ hours of custom setup and external paid apps. Crewdesk starts where that work ends.

Capability / Requirement	Crewdesk (Agency OS)	ClickUp Pro / Unlimited	Asana / Jira / Trello
Daily Attendance & Overtime Punch Log Desktop/mobile check-in, late arrival flags, audit log	✔ **Built-in & Ready** Day 1 out of the box	✕ **Not Supported** Requires 3rd-party tool	✕ **Not Supported** Separate app required
Leave & Workload Auto-Deduction Approved leaves automatically reduce project hours	✔ **Built-in & Connected** One unified record	▲ **Setup Required** Forms + Zapier webhooks	✕ **Not Supported** Calendar days only
Real Profit Margin per Project Developer rate × logged hours = true margin live	✔ **Built-in (Owner Only)** Confidential & automatic	▲ **Setup Required** Rollup formulas & manual sync	✕ **Not Supported** Deals only, not dev cost
Encrypted Client Password Vault AES-256 vault with reveal logs & exit auto-revoke	✔ **Built-in** Zero sheets or chat leaks	✕ **Not Supported** Requires 1Password ($5-8/seat)	✕ **Not Supported** Plaintext in Slack/Sheets
Developer Capacity & Workload See max tasks allocated vs available bandwidth	✔ **Built-in** Connected to leave schedule	▲ **Setup Required** Locked on Business Plan	▲ **Setup Required** Manual point estimates
Role-Based Dashboards (Admin, HR, PM, Dev) Pre-configured views with zero salary leakage	✔ **4 Pre-built Dashboards** Zero permissions confusion	▲ **Setup Required** Must configure spaces/folders	▲ **Setup Required** Complex permission trees
Agency Data Isolation & Security Separate database and infrastructure per agency	✔ **Dedicated Database** Isolated Supabase project	▲ **Shared Multi-Tenant** Shared public cloud tables	▲ **Shared Multi-Tenant** Shared public cloud tables
Setup Time & Implementation Effort Hours required before your team can run on it	**0 Hours (Done For You)** Ready in 3 days with onboarding	**40+ Hours DIY** Weeks of configuration	**30+ Hours DIY** Perpetual maintenance

The 3 Architectural Pillars That Protect Agency Founders:

1. Already Set Up
Attendance, leave policies, developer rates, and workload work on Day 1. Nobody builds forms, relational rollups, or fragile Zapier triggers.

2. Already Connected
When leave is approved, project capacity drops. When time is tracked, live project margin updates. One single record; zero copying between tools.

3. Yours To Shape
Carries your agency's logo and brand. Includes up to 3 custom modules built free in month 1 to adapt to your unique workflow.

Pricing Comparison Matrix: Transparent Flat Rates vs Per-Seat SaaS

Published list prices checked October 2026 (PKR 280/USD). Zero setup fees, zero feature tiers.

Platform & Plan	Their Price / Mo	Crewdesk Price	You Save / Mo	You Save / Year	Hours Saved
--- TEAM OF 10 PEOPLE --- (Starter Plan)					
ClickUp Unlimited (Billed Annually at $7/user)	PKR 19,600	**PKR 12,000**	**PKR 7,600 (39%)**	**PKR 91,200**	**+18h / mo**
ClickUp Unlimited (Billed Monthly at $10/user)	PKR 28,000	**PKR 12,000**	**PKR 16,000 (57%)**	**PKR 192,000**	**+18h / mo**
ClickUp Business (Billed Annually at $12/user)	PKR 33,600	**PKR 12,000**	**PKR 21,600 (64%)**	**PKR 259,200**	**+18h / mo**
ClickUp Business (Billed Monthly at $19/user)	PKR 53,200	**PKR 12,000**	**PKR 41,200 (77%)**	**PKR 494,400**	**+18h / mo**
HubSpot Starter Suite ($20/user/month)	PKR 56,000	**PKR 12,000**	**PKR 44,000 (79%)**	**PKR 528,000**	**+18h / mo**
